# CornerStone <br> WALL SOLUTIONS ${ }^{\text {m }}$ 

When Every Inch Counts....
POST-iN Fencing System for SRWs utilizes the large hollow cores of the wall blocks for steel or wood fence posts. The cantilevered Post In/concrete slab and the soil behind the wall, resists the overturning pressure of the lateral loads. By placing the fence on top of the wall, you can maximize use of property and reduce maintenance behind the wall.

WALL SOLUTIONS ${ }^{\text {™ }}$

## POST-iN Retaining Wall

## SPECIFICATIONS

Height 18" (450mm)
Width 12" ( 305 mm )
Length 36" (915mm)
Weight $=7$ Lbs ( 3.17 Kg )

## MAXIMIZE

Every Inch of Property behind the Wall

## ELIMINATE

Cumbersome Landscape Maintenance
INCREASE
Safety and Security on Top of Wall
